## We bring you a 2003 BMW 325i

A 2003 BMW 325i sport sedan 5 speed with only 65K miles. Purchased from the original owner with 29K on it. The battery, brakes and tires were all replaced in the past few years. The car is not driven much and was used more as a second car. Here are some pictures and will provide more details if you are interested. The only issues with the car is both front windows won't roll down. I replaced the actuators and motors in both and they worked, but I think the glass has pulled away from them.

Selling for \$4,200.00 or Best Offer
